

Energy Management Training for State Governments *(state agencies and higher education institutions)*

- ☒ Are you concerned about rising energy costs?
- ☒ Are you interested in greening your existing facilities?
- ☒ Do you want to keep informed of changing technologies?
- ☒ Do you want to enhance your facilities management skills?
- ☒ Do you to learn new ways to save energy dollars?

If so, our Energy Management Training can help!

Energy Management Training

Monthly, 90-minute, tele-conferences on various topics in energy management. (Just call-in from the comfort of your office, view the slideshow on your computer screen, and interact on the conference call.)

- Learn about valuable resources to help you keep your facilities operating at peak efficiency.
- Share your experiences with peers through an open forum.
- Receive a certification of training and continuing education units documenting your participation.

Who Should Attend?

Facilities and maintenance staff of state agencies and higher education institutions.

Our energy management tele-conferences can help you gain valuable experience to increase the efficiency of your existing facilities.

Don't miss out!

Training begins Fall 2006

Register online www.colorado.gov/rebuildco.
